

'Stay Safe Indoors'

Lockdown Policy and Procedures

Kingsway Infant School

The purpose of a lockdown is to prevent an intruder or other potential threat in the school grounds/outside of school, from causing harm to both pupils and staff. It means the entrances to the school must be secured in an effort to prevent any threat entering. Staff and pupils must find a suitable place to protect themselves which may include being locked within school buildings for their own safety.

This may also occur in the event of a hazardous situation such as a chemical spill or fire, which makes it dangerous for pupils, staff and visitors to be outside of the school perimeter – see also Evacuation Procedures in Education Premises, General Emergency Procedures

This policy applies to staff, pupils, adult helpers (volunteers/parents/carers) and people visiting the school. It covers the procedures staff should take if and when the school is required to go to lockdown.

All staff and visitors:

All adults have a duty to protect children to the best of their ability and to respond to a situation in the best way they can. In doing so they are also trying to keep themselves as safe as possible. A termly lockdown practise will be held so the pupils are aware of the 'Stay Safe Indoors' procedure.

All staff will receive training at least annually on the Lockdown Procedures, which forms part of induction training for new staff.

Communication with parents and the school:

The school lockdown procedures will be shared with parents either by newsletter or via the school website. In the event of a lockdown or other emergency procedure the office and/or the Senior Leadership Team (SLT) will take advice from the emergency services about when to communicate the situation to parents. The school will be mindful of the need to keep parents safe, to reassure them that all efforts are being made to keep their children safe and to provide regular updates once the situation has been explained.

'Stay Safe Indoors' Lockdown Procedure

Signals

- Signal for lockdown – long repeated whistles
- Signal for all clear – verbal, walk around by the Headteacher and/or Deputy Headteacher/person liaising with the emergency services

Immediate Action

- Pupils inside the school should return to class (check of toilets/corridors required)
- Where classes are outside the school building, pupils should be brought inside as quickly as possible and return to their classroom. Where it is not safe to return, the staff should escort the pupils to the Designated Assembly Point – far side of Kingsway Junior field - see Evacuation Procedures in Education Premises, General Emergency Procedures
- Classroom doors are locked, windows closed, blinds drawn and lights switched off. Pupils will sit quietly on the floor and out of sight – away from doors and windows. Register should be taken to confirm attendance of all pupils.
It is suggested that an adult in each class is responsible for a specific task
- Staff should encourage the pupils to keep calm
- The school office/SLT will immediately alert (DIAL 999) and then maintain communication with the emergency services
- Once in lockdown mode, where possible, the office will contact each class in turn for an attendance report to confirm that all pupils, staff and visitors are accounted for
- All staff, pupils and visitors should be aware of the exit route in case an intruder gains access
- During the lockdown, staff will keep agreed lines of communication open and not make unnecessary calls to the office as this could delay important communication
- Remain inside until the all clear has been given

If at any point during the lockdown, a continuous ringing bell can be heard, this indicates the immediate evacuation of the building to the Designated Assembly Point – far side of Kingsway Junior field.

If a situation arises where an adult discovers possible danger from an intruder and no alarm has been sounded then they must seek to remove children from the imminent threat taking the best course of action available at that moment. If they are able to, they should alert others as quickly as possible and call the emergency services.
